

Construction Technology and Efficiencies to Increase Supply

December 5, 2019

3:30 – 5:00 AGENDA

Museum B Explore new construction technologies and creative solutions being deployed by members to increase the supply of affordable housing. How can we combine forces to create more impact and lower costs? Can off-site construction solve some of our issues? We will hear from 2 industry experts on the research and work they have explored in order to find solutions to our complex and costly construction projects. A deep dive into the top 6 conversations around offsite construction. Finally, explore ideas on next steps to bring off-site construction to scale.

3:30 Welcome and Introductions

- Mary Tingerthal, Former Commissioner, Minnesota Housing
- Andrea Ponsor, COO / Executive Vice President, SAHF
- Jed Klebanow, Director of Sales, Full Stack Modular

4:00 Q&A - Common Concerns and Issues with Off-Site Construction

- Financing
- Design
- Quality
- Regulations
- Capacity
- Time & Cost Saving

4:40 What message can we send to the off-site manufacturer to help them better understand our business?

4:50 Wrap Up and Next Steps

5:00 Adjourn
