

# Top Challenges in Asset Management

Dec 5, 2019

**10:30 – 12:00**

**Museum A**

## AGENDA

Join your peers for a highly interactive session on approaches and solutions to your top challenges in asset management. Prior to the session, we surveyed attendees on your top 3-5 issues and came up with:

- Year-15 refinance strategies
- Risk management from the eyes of asset management
- Pros and cons of capitalizing projects vs using reserves
- KPIs: Discuss pros/cons of choosing between similar KPIs

The first hour will feature quick-hitting, rotating table discussions on specific topics, enabling you to weigh in on a number of issues. In the final segment, we will piece together what we learned, hopefully having gained many insights and developing a list of topics for future in-depth discussions.

- 10:30 Welcome and Introductions
- 10:45 Breakout #1
- 11:05 Breakout #2
- 11:25 Debrief on Breakouts
- 11:45 Wrap Up, Next Steps, and Future Session Topics
- 12:00 Adjourn
